### DISCUSSION/BACKGROUND

The County faces a complex array of risks that can result in severe or catastrophic loss. Purchasing

insurance helps protect the County from catastrophic general liability claims, automobile accidents, and workers' compensation injuries. Additionally, purchasing insurance protects the County from loss due to damage or destruction of County assets, pollution, crime, cyber liability, and airport operation exposures. The County procures a variety of insurance policies and programs to mitigate and transfer exposures to catastrophic loss. By securing these risk mitigating and transfer mechanisms, the County is better positioned to protect assets and personnel for the fulfillment of its services, objectives, and Strategic Plan.

This request is an annual process for the Board to authorize the Risk Management Division to renew insurance coverage and programs provided by CSAC EIA, Old Republic, QBE Insurance Corporation, and Alliant. The County utilizes its participation in CSAC EIA in conjunction with professional insurance brokerage services to place a variety of commercial insurance policies to protect the County.

The total estimated premium for FY 2018/19 is \$2,029,611. This represents an \$31,116 decrease, from FY2017/18 total premium of \$2,029,611. Note: The invoiced premium amounts may differ slightly from the attached estimates, as CSAC-EIA does not finalize premiums until program renewal.

The Risk Management Division has evaluated each of the insurance programs in terms of potential loss, coverage, self-insured retentions, deductibles, and policy limits, and recommends the purchase of insurance as described below.

### **CSAC-EIA Programs**

CSAC EIA is a Joint Powers Authority (JPA) comprised of California counties, cities, and public agencies organized to jointly develop and fund insurance and related programs with the most favorable terms and costs. The County has been a CSAC-EIA Program participant for more than 25 years. Current program participation includes:
