DISCUSSION / BACKGROUND

In October 2018, Department of Transportation (Transportation) issued an informal Request for Proposal (RFP) for on-call materials testing services. Transportation has a materials testing lab that can perform the majority of the testing needed for construction projects; however, there are some specialized tests which they cannot perform and must be sent out to a consultant. Three (3) proposals were received and evaluated and Geocon Consultants, Inc. was selected as the most qualified firm.

Transportation recommends the Board make findings in accordance with Section 3.13.030 of the El Dorado County Ordinance that it is more economical and feasible to engage an independent contractor for on-call materials testing services because there are specialty skills and equipment required for the work to be performed under this agreement which are not sufficient to warrant the

addition of permanent staff or the purchase of expensive equipment.

The El Dorado County Employees Association (Local #1) was informed of the proposed Agreement.

ALTERNATIVES

The Board could choose to not approve the agreement. Transportation would make changes as requested and return to the Board for approval.
