**DISCUSSION / BACKGROUND**

Over the past 9 - 12 months, the Superintendent of Schools and Office of Education, with the assistance of Bellwether Education, have led a collaborative effort to identify ways to improve outcomes for at-risk youth in El Dorado County. Participants in these discussions include staff from the Office of Education, Probation, Health and Human Services, the Superior Court, several non-profits who provide services to El Dorado County youth.

As a result of those efforts, the team of professionals have identified a concept that we believe could improve outcomes for at risk youth, but in order to move forward it will require a commitment and support from the Board of Supervisors.

**ALTERNATIVES**

Upon hearing the presentation, the Board could determine that other priorities outweigh the benefits of this concept and choose not to include this concept in the County's Strategic Plan.

**OTHER DEPARTMENT / AGENCY INVOLVEMENT**

Health and Human Services, Probation

**CAO RECOMMENDATION / COMMENTS**

It is recommended the Board direct staff to include this concept in the County's Strategic Plan to further explore the feasibility and long term sustainability of the proposed concept.

**FINANCIAL IMPACT**

Outside of staff resources, there is no financial impact at this time. However, if the concepts are implemented, funding will need to be identified from a variety of sources, including grants, funding from education, state and federal funding and the General Fund.
