DISCUSSION / BACKGROUND:

The Behavioral Health Network of South Lake Tahoe (BHN) is a network of over twenty organizations that are working together to enhance the way individuals and families access programs and services on the South Shore, otherwise known as the East Slope of El Dorado County. One enhancement to the network BHN has implemented is a secure Health Insurance Portability and Accountability Act (HIPAA) -compliant electronic referral platform enabling organizations to refer and connect people to needed services while tracking service delivery outcomes. The electronic referral platform is provided by Unite USA, Inc., a Delaware Corporation doing business as Unite Us, Inc.

The Health and Human Services Agency (HHSA) wishes to participate in the referral network, thereby assisting clients to find and engage in needed services, as well as to increase the availability of documentation around service areas that may need further attention and resources. In order for HHSA to participate, approval of this HIPAA Business Associate Agreement (BAA) is necessary as it identifies the legal parameters for sharing personal health information.

ALTERNATIVES:

Should the Board decline to approve this recommendation, HHSA would continue to provide referrals and collect data through existing contracts.
