DISCUSSION / BACKGROUND

The Regional Cooperation Policy authorizes the County's participation with the Greater Sacramento Economic Council (GSEC) as a voting member. The policy provides economic development related services including regional, statewide, and international strategy development, assistance with retention and expansion of existing businesses within the County, and research on key retention and expansion projects.

The foundation of the Regional Cooperation Policy is built on trust and the spirit of regional cooperation among the entities involved and is intended to serve as a guideline for interaction between GSEC and its member communities. It is imperative that GSEC Directors and its member communities work together as partners on projects involving the communities which Greater Sacramento represents.

Signing the Regional Cooperation Policy demonstrates the County's commitment to promote the six-county Sacramento Region as a globally competitive region.
