DISCUSSION / BACKGROUND

The most recent contract with Lehr Auto Electric expired in October 2019 leading the Sheriff's Office to explore various options in terms of vehicle services for various types of vehicles. In the past, bids had been performed and Lehr was consistently awarded the contract with the County.

Prior to the expiration of the most recent contract, it was determined that Placer County also held a contract with Lehr Auto Electric and had gone through the necessary procurement steps to ensure this agreement was economically feasible.

With the assistance of Procurements and Contracts, the Sheriff's Office has determined that the contract between Lehr Auto Electric and Placer County is a suitable piggyback option. This contract covers the costs of not only labor associated with the removal and installation as law enforcement equipment, but also the parts allowing for these services to be more cost efficient than under the terms of previous agreements.

Approval of this agreement allows the Sheriff's Office to continue with day to day business in terms

having a sufficient number of vehicles in use that are outfitted for various tasks relating to the Sheriff's Office.

Therefore, in order to assist with a continuation of services for the community, the Sheriff's Office is requesting the contract be in place for 3 (three) years from the date of execution with a not to exceed amount of \$350,000 to cover costs associated with vehicle builds and tear downs for the life of the contract.
