DISCUSSION / BACKGROUND

On September 20, 2016, the Board approved the use of U.S. Communities Agreement 400006644 with Insight Public Sector, Inc. for the purchase of Amazon cloud storage solutions with a Not-to-Exceed amount of \$20,000 (Legistar #16-0874). On April 30, 2019, the Board approved the extension of the Agreement to April 30, 2021, (Legistar #19-0624) and an increase to the Not-to-Exceed amount to \$60,000.

The increase in usage of cloud storage can be attributed to a few factors, including new County systems being brought into the environment, in addition to maintaining existing systems. Additionally, some system implementations have taken longer than originally expected, increasing the need for cloud storage, however the migration from the legacy backup solution to the Rubrik data protection and backup services (Legistar 20-0092, 1/28/20) has resulted in more efficient and comprehensive

data backup/restore processes that protect County data in the cloud. Ongoing costs are expected to gradually increase as the County's data backup needs naturally increase.

ALTERNATIVES

There are no feasible short-term alternatives to continuing to utilize Amazon cloud storage services.
