DISCUSSION / BACKGROUND

In June 2016, the County engaged Koff and Associates (K&A) for the provision of professional services to design, conduct, and assist in recommending an implementation approach of a classification (Phase I) and compensation (Phase II) study for all County positions. The overall goals of the classification and compensation study included: developing a competitive and fiscally responsible pay and benefit structure that is based upon market data and meets the needs of the County with regards to recruitment and retention of qualified staff; ensuring employees be recognized for the level and scope of work performed, and that they are paid on a fair and competitive basis, and ensuring class specifications reflect current programs, responsibilities, and technology.

In September 2017, the Human Resources Department requested and received Board approval (Legistar Item 16-0098) to implement, in phases, the County-Wide classification study.

The Human Resources Department has been working with departments (management and employees) and unions to finalize for Board consideration newly-proposed class specifications and reclassifications (and subsequent allocation changes). The following is being presented to the Board for consideration:

- Revised Class Specification - All sections in the class specification were updated to better reflect the duties and responsibilities currently being performed and to be consistent with industry standards.

Building Inspection Supervisor

- Class specification revisions
- Title change from Operations Supervisor

ALTERNATIVES

The Board could choose not to adopt the revised class specification and direct Human Resources to make revisions or conduct additional analysis.
