DISCUSSION / BACKGROUND

The Library Department has been analyzing and evaluating work flow and duties in order to

reorganize to maximize efficiencies and cost savings. At this time, two current vacancies (1.5 FTE) can be eliminated and two alternate positions added that will provide appropriate coverage of duties and greater flexibility of resources that result in efficiencies and cost savings in alignment with a long-term staffing model.

The Library Services Department proposes to delete one vacant Supervising Librarian position and add one Supervising Librarian Assistant position due to a reorganization of duties following a vacancy in the Supervising Librarian position. The Supervising Library Assistant position is being overfilled with a Library Assistant I/II position allocation per personnel rule 505.2. This change in allocation will align the personnel allocation with currently filled positions, as is typically done through the budget process. It is anticipated that the total annual cost of adding the Supervising Library Assistant position will be approximately \$70,600 and the annual savings from the deleting the Supervising Librarian position is \$109,600 with a net savings of \$60,000.

The Library Services Department is also proposing to reclassify 1.5 FTE Library Assistant I/II positions to Sr. Library Assistant classifications based upon the current duties assigned to the roles. The Human Resources Department has conducted an analysis of the duties and agrees with the reclassification. The Library Services Department currently has a vacant Sr. Library Assistant Allocation, so it is proposed that only a 0.5 FTE Sr. Library Assistant allocation is added to complete the reclassification. After the reclassification the Library Services Department will have a vacant Library Assistant I/II allocation that is consistent with the duties for that position. It is anticipated that the reclassifications of the filled positions will have an approximate annual cost of \$1,700.

Overall the changes to the Personnel Allocation will not change the total FTEs assigned to the Library Services Department and will result in an approximate net savings of \$58,300.
