DISCUSSION/BACKGROUND

Request to consider the Montano De El Dorado Phase I and II Master Plan Project (Rezone Z15-0002/Tentative Parcel Map P15-0006/Planned Development PD15-0004/Conditional Use Permit S17-0015), in the El Dorado Hills area, submitted by Montano Venture 2, LLC/Vinal Perkins. At its March 25, 2021 public hearing, the PC reviewed the project, the Project EIR and related documents and exhibits as presented by staff. The Commission discussed several topics at length including on-site and off-site transportation/circulation including traffic flow management and public safety considerations, views of the project from adjacent residences along the eastern project boundary, potential effects of noise resulting from outdoor special events held at the proposed community pavilion, public safety concerns regarding fencing/screening of an on-site stormwater detention basin, aesthetic concerns regarding the proposed fence/wall along the eastern project boundary, and the location of trash dumpsters on site. Several public comments were received at the hearing.

Following closure of deliberation and public comment, Commissioner Ross made a motion, with a second by Commissioner Bly-Chester, to recommend the Board of Supervisors approve the project and certify the Project EIR as recommended by staff with several amendments to the project COAs and hearing exhibits as documented in the PC meeting minute order (Attachment E). PC-recommended amendments to project COAs, exhibits and the project MMRP included relocation of trash dumpsters (COA No. 9), amended language for a required Roadway Improvement Agreement (COA No. 13a), addition of a new COA regarding construction of a median barrier at the existing right-in, right-out access driveway at White Rock Road for public safety (new COA No. 13c), a new COA (new COA No. 53) regarding detailed practices and procedures to minimize noise resulting from outdoor special events held at the proposed community pavilion, and minor revisions to MMRP Section 3.10-b to specify public noticing of blasting activities shall include the date and the start and stop times of when blasting will occur.

PC recommended plan revisions including revised landscape plans to show appropriate green screening vegetation and railing around the proposed detention basin and a continuation of a living/crib wall along the eastern boundary substantially the same as existing in Phase I (Attachment G). Revised plans also include building elevations showing a reduced tower height to 50 feet (Attachment H) and retaining wall plans/diagrams showing elevations of the proposed retaining walls/sound walls (Attachment I).

The motion passed 4-1. The Planning Commission Findings and recommended COAs are included as Attachment F.

ALTERNATIVES

- 1) The Board may elect to continue the item to a date certain for additional information and future action;
- 2) Continue the item off-calendar, which would require a new public notice for future consideration and action; or
- 3) Deny the application. A Denial action would result in a request to have the item be continued to a date certain so that staff can prepare Findings for Denial.

PRIOR BOARD ACTION

N/A

OTHER DEPARTMENT/AGENCY INVOLVEMENT

County Counsel, Department of Transportation

CAO RECOMMENDATION

N/A. Pursuant to Section 2.13.050 of the County Code of Ordinances, the Chief Administrative Officer does not make recommendations on those items scheduled for public hearing through the Planning Commission.

FINANCIAL IMPACT

There will be no net County cost associated with the project. Developer Funded Project.

CLERK OF THE BOARD FOLLOW UP ACTIONS

- 1) Clerk to obtain the Chair's signature on the original copy of the Rezone Ordinance.
- 2) Clerk to send one (1) fully executed copy of the Rezone Ordinance to the Planning and Building Department, attention of Julie Saylor, Clerk of the Planning Commission.

3) Clerk to obtain the Chair's signature on the original copy of the FEIR Resolution.

STRATEGIC PLAN COMPONENT

Economic Development and Good Governance. This project aligns with the General Plan Economic Development Element as well as the Economic Development goals of the County's Strategic Plan. Project approval would allow the development of approximately 136,000 square feet of new commercial floor area that would provide sales tax and property tax revenue. It is also a practice of Good Governance as the project would include needed improvements to County-maintained roadways in the project vicinity and also improve vehicular and emergency vehicle access for the public benefit.
