### DISCUSSION / BACKGROUND

The County first entered into an agreement with Kronos Incorporated in 2016. The Kronos workforce management system tracks, manages and controls employee time and attendance records countywide. Kronos interfaces with MUNIS (FENIX) payroll and work order modules, improving the employee time entry process. Kronos provides real-time feedback to users and managers for items requiring immediate action and also provides a variety of on-demand and custom reports. The Kronos workforce management system meets governing requirements for overtime and FLSA.

The Kronos contract has previously been brought before the Board as a perpetual agreement under FENIX contract #2710. However, it will be treated as a standard agreement going forward to align with the expiration date of Amendment III to the OMNIA Partners Master Agreement #18220. The third amendment to the OMNIA Partners agreement went into effect December 15, 2021, and extended the term of the agreement to March 17, 2023.

### ALTERNATIVES

The Board could refuse to sign this contract which would terminate our countywide timekeeping

system services and we would need to determine an alternate way to process time cards.
