FUNDING: 100% Federal and State funding.

DISCUSSION / BACKGROUND:

The Board of Supervisors Policy A-6, Grant Applications, establishes the Board as the sole authority for accepting grant awards and approving grant agreements. Over the years, and in accordance with said Policy, Health and Human Services Agency (HHSA) has presented many funding/revenue agreements, grants, and other funding allocations to the Board for approval.

The Department of Health Care Services (DHCS) issues at least two annual revenue allocations/agreements to the Health and Human Services Agency that require signature by the HHSA Agency Director or HHSA Behavioral Health Director. These include the 1) Projects for Assistance in Transition from Homelessness (PATH) and 2) Community Mental Health Block Grant (MHBG) allocations. HHSA is recommending the Board adopt and sign the attached Resolution delegating authority to the HHSA Agency Director or HHSA Director of Behavioral Health to accept and execute these funding allocations/agreements.

PATH Funding

PATH funds are specifically designated for outreach, case management, staff training, referrals to primary health services, job training and relevant housing services for homeless clients of the Behavioral Health Division. Historically these requirements have been successfully fulfilled via subaward contracts with Tahoe Coalition for the Homeless (TCH).

MHBG Funding

Since 1997, the MHBG funds have been used in collaboration with other public and private organizations such as HHSA Social Services programs and the County Office of Education to address the needs of children/adolescents with serious emotional disturbance.

MHBG is comprised of funds to: 1) support the County in carrying out plans for providing comprehensive community mental health services to adults (age 18 and over) with serious mental illnesses, and to children (under age 18) with serious emotional disturbances; 2) provide treatment to patients diagnosed with dual disorders (psychiatric disorders along with alcohol and other drug use disorders); and 3) provide treatment to adolescents and young adults who experience psychotic symptoms or a psychotic episode for the first time.

Additional Background

Each of the referenced DHCS allocations require a signature from the HHSA Agency Director or HHSA Director of Behavioral Health. HHSA is recommending that the Board delegate authority to the HHSA Agency Director and HHSA Director of Behavioral Health to accept funding and execute specific revenue agreements issued by the California Department of Health Care Services that require signature by a Director of Behavioral Health, for the PATH and MHBG allocations.

ALTERNATIVES:

Disapproval of the Resolution will mean that HHSA will present these allocations individually to the Board to accept funding and to request that the Board delegate signature authority to the HHSA Director of Behavioral Health or the Director of HHSA to sign all necessary documents to secure the funding.
