DISCUSSION / BACKGROUND

The California CUPA Forum Board established the CUPA Forum Environmental Protection Trust Fund (Trust) to enhance the investigation and enforcement of the State of California statutes and associated implementing regulations as related to hazardous materials and hazardous waste. The Trust was established to disburse and manage monies primarily from case settlements as adjudicated through the efforts of local, State, and Federal prosecutors.

EMD submitted a grant application in the amount of \$106,663.81. On May 17, 2022, EMD received

notification of the grant award, and subsequently received the grant agreement to execute in the amount requested, \$106,663.81 (Attachment A). The grant will be used to purchase an MX908-c portable mass spectrometer, a handheld chemical detection system for gas/vapor, liquids, solids and aerosols. This unit will be used to assist in providing positive chemical identification during both field inspections of regulated facilities and during emergency response activities.

In accordance with BOS Policy A-6, the Board of Supervisors is the sole authority for accepting grant awards and approving grant agreements. After acceptance of a grant award and approval of the grant agreement, the Board may delegate authority to execute the grant agreement and other grant-related documents.
