Human Resources recommending the Board:  
1) Approve the classification specifications for Sr. Traffic Signal and Lighting Technician and Office Engineer; and  
2) Adopt and authorize the Chair to sign resolution **117-2022** to approve a corrected allocation change from item 22-0931 with Resolution 110-2022, that the Board approved on July 19, 2022, adding one full time equivalent allocation for Sr. Civil Engineer that was mistakenly left off the allocated amount on the original allocated amount.

### DISCUSSION / BACKGROUND

On July 19, 2022, the Board approved the Department of Transportation to add two new classifications, Sr. Traffic Signal and Lighting Technician and Office Engineer, however, copies of the classification specifications were mistakenly not attached to the agenda item. Staff are requesting the Board approve the class specifications as outlined in attachments C and D.

Additionally, Resolution 110-2022, approved by the Board on July 19, 2022, included a numerical mistake on the total number allocated of Sr. Civil Engineers. The amount of allocated Sr. Civil Engineers should have been 11.0 full time equivalent (FTE) but mistakenly stated 10.0 FTE allocations. The new resolution adds one FTE allocation to bring the total to 11.0 FTE allocations for Sr. Civil Engineers in the Department of Transportation.

## **ALTERNATIVES**

The Board could choose to not approve the correction, which would delete an allocation previously approved by the Board with the Fiscal Year 2022-23 Recommended Budget.
