DISCUSSION / BACKGROUND

DOT had a contract with Syar Industries for the purchase of EZ Street High Performance Cold Patch Mix via a formal bid; Syar Industries was recently acquired by Vulcan Materials Company, so Syar Industries can no longer provide this product to DOT and Vulcan Materials Company does not offer EZ Street High Performance Cold Patch Mix.

At the request of DOT, the Procurement and Contracts Division issued an Invitation to Bid for the purchase of High Performance Cold Patch Mix for the West Slope of El Dorado County for the maintenance and repair of county roads. The Invitation to Bid was published in the County's eProcurement system, PlanetBids, and twenty-one Invitations to Bid were mailed, three to local vendors. Four qualified responses were received, none from local vendors, as they do not produce

this material. The recommendation is to award Vulcan Materials Company Category "A" and award Crafcro Incorporated Categories "B and B-1".

ALTERNATIVES

Without High Performance Cold Patch Mix for the routine patching of potholes on the West Slope of El Dorado County, would result in further deterioration of County roads. Using a lesser quality patching material will result in increased labor and equipment cost because it would require reapplication of the material.
