### DISCUSSION / BACKGROUND

The Fiscal Year 2024-25 budget reflected the transfer of the Cemeteries program from the Planning and Building Department to the Chief Administrative Office, Facilities Division. In the current Fiscal Year 2024-25 Adopted budget, the Cemeteries program was recorded in the former Cemeteries organization codes, as the required chart of accounts updates were not completed at that time. As a result, the budget for the Cemeteries is currently recorded in an obsolete organization code, while operational expenses are being incurred in the new Facilities Division Cemetery accounts.

The recommended budget amendment will transfer all budgeted General Fund appropriations and estimated revenues for the Cemeteries program from the old organization code to the new Facilities Division code. This update will result in the Facilities Division budget being increased to reflect the additional costs of the Cemeteries program, offset by a decrease in the obsolete organization code. This budget transfer makes no net changes to the General Fund budget, and is only a reclassification of budget between divisions.

### ALTERNATIVES

Incurring the Cemeteries program costs without the General Fund budget being transferred would likely result in the Facilities Division exceeding their budget.
