Total Estimated Revenue.....	\$72,644
Total Funding Available.....	\$72,644
Change To Net County Cost.....	\$0

Fiscal Impact/Change to Net County Cost

There is no impact to Net County Cost associated with this Agreement. Funding for U.S. Department of Energy (DOE) Weatherization Assistance Program services is included in the Agency's FY 2014-15 Recommended Budget.

Background

The DOE Weatherization Assistance Program is a federally funded program that assists low-income households with offsetting their energy costs by installing energy saving measures in their homes. The County of El Dorado has received this DOE grant allocation since the early 1980s.

Reason for Recommendation

Contract 14C-1807 allocates \$72,644 for provision of DOE Weatherization services during the period August 1, 2014 through June 30, 2015. This federal funding augments other grant funding received for provision of Weatherization services to eligible residents of El Dorado and Alpine counties for long-range utility cost savings and energy conservation. If the funding is not accepted, fewer homes of low income residents in El Dorado and Alpine counties would receive energy saving improvements.

Upon execution, the agreement is retroactive to August 1, 2014. It was received from the California Department of Community Services and Development on August 12, 2014, and processing was expedited.
