Fiscal Impact/Change to Net County Cost

Subvention funding of \$97,490 is included in the FY 2014-15 Air Quality Management District (AQMD) budget. There is no change to net County cost.

Background

The Budget Act of 2014 (Budget) contains an appropriation of \$10,111,000 for subvention to local air pollution control districts. California Health and Safety Code 39810 requires \$500,000 of the amount appropriated by the Budget be reserved for subvention to rural air pollution control districts to attain minimum subvention levels if certain criteria are met.

Reason for Recommendation

This request implements the Board's revenue requirement in the AQMD approved FY 2014-15 budget by authorizing the submittal of the application for continued subvention funding. These funds are appropriated in the State of California Budget Act of 2014 and are distributed to local air districts in accordance with formulas established by the Health and Safety Code. This year's annual fund award process mirrors that used in previous fiscal years, FY 2013-14 and FY 2012-13.

If approved, the completed Fiscal Year 2014-15 Application for Subvention Funds form (Attachment A), designed to identify the total budget for AQMD's air pollution control program, including a detailed

breakdown by funding source, will be submitted to the California Air Resources Board prior to November 15, 2014. Funds will be utilized for District operations and the chimney smoke reduction incentive program.

Clerk of the Board Follow Up Actions

Clerk of the Board will provide certified copy of Board's action to the AQMD.

AQMD Follow Up Actions
