DEPARTMENT RECOMMENDATION:

Community Development Agency, Transportation Division (Transportation) recommends that the Board Chair sign the Easement Acquisition Agreement for Public Purposes for the Sly Park Road at Clear Creek Crossing - Bridge Replacement Project (Project). This easement is necessary to construct the Project.

DISCUSSION / BACKGROUND:

The existing bridge was built in 1936 and is now sub-standard in its design with current road usage. Recent inspections indicate scour problems with the bridge's footings and abutments. Due to functional obsolescence, rehabilitation of the existing bridge is infeasible.

This Project will replace the existing bridge on Sly Park Road at Clear Creek, as well as realign and widen approximately 965 feet of Sly Park Road. A two-way left-turn lane will be included to improve safety for vehicles turning onto and off of Clear Creek Road. The Project will also improve drainage along Sly Park Road.

The Board of Supervisors approved the CEQA document for this Project on September 14, 2010, item number 18.
