DEPARTMENT RECOMMENDATION

The Community Development Agency, Transportation Division (Transportation), recommends that the Board Chair sign the Acquisition Agreement for Public Purposes for the Sly Park Road at Clear Creek Bridge Replacement Project, CIP No. 77115 (Project). The Slope and Drainage Easement and Temporary Construction Easement acquisitions are necessary for construction of the Project.

DISCUSSION/BACKGROUND

The existing bridge was built in 1936 and is now sub-standard in its design with current road usage. Recent inspections indicate scour problems with bridge's footings and abutments. Due to functional obsolescence, rehabilitation of the existing bridge is infeasible.

This project will replace the existing bridge on Sly Park Road at Clear Creek, as well as realign and widen approximately 965 feet of Sly Park Road. A two-way left-turn lane will be included to improve safety of vehicles turning onto and off of Clear Creek Road. The Project will also serve to improve drainage along Sly Park Rd.

The Board of Supervisors approved the California Environmental Quality Act document, a Mitigated Negative Declaration, for this project on September 14, 2010 (Item No. 18).
