- 3) Authorize the Purchasing Agent to increase the contract amount and sign any additional amendments to the agreement for Hauling Services for the West Slope of El Dorado County on an "as needed" basis during the awarded period as long as funding is available within the requesting department's budget.

**FUNDING:** Road Fund Discretionary.

### **DEPARTMENT RECOMMENDATION**

Road materials hauling services for the West Slope of El Dorado County is required to complete road work in a timely manner. The Board of Supervisors is asked to make findings in accordance with County ordinance 3.13.030 that these services are more feasibly provided by an outside contractor than if the County were to purchase and maintain the large trucks necessary for hauling road materials and employ full-time drivers. The completion of road work would take much longer if only County equipment was to be utilized to haul materials, unless the County purchased several large trucks and hired additional staff to provide these services. These services can be provide under contract on an "as needed" basis, rather than incurring costs of purchasing, maintaining and insuring vehicles and employing permanent staff.

### **DISCUSSION / BACKGROUND**

The previous contract for these services was approved by the Board of Supervisors on 06/25/2013 #26.

### **ALTERNATIVES**

Have the Community Development Agency-Transportation Division only utilize County equipment for the hauling of materials for the West Slope of El Dorado County which would cause road work to be completed at a much slower rate or not at all.
