### DISCUSSION / BACKGROUND

The CAO-Procurement & Contracts Division issued an invitation to bid for two different Willoughby Industries 2046 Series Jail Combination Toilet Units, Category 1 is for a 1.6 gallons per flush unit and Category 2 is for a 1.28 gallons per flush unit. The Facilities Division will be replacing over one-hundred twenty (120) units at the Placerville Jail with one of these two types of toilets, as it has been

identified as one of the most inefficient County facilities in regards to water use and new low flow, high efficiency toilet units will be installed to replace antiquated models.

Eighteen (18) invitations to bid, four (4) to local vendors, five (5) responsible and responsive bids were received, one (1) from a local vendor.

#### **ALTERNATIVES**

The cell plumbing systems at the jail were identified as nearing end of life during a comprehensive facility assessment performed in 2013. Without replacement, failures will become more frequent and costly.
