DISCUSSION / BACKGROUND

The Probation Department has been continuously operating the Electronic Monitoring Program (EMP) since 2006 to provide home detention services as a custody alternative for appropriate sentenced offenders. The department has the necessary expertise in this area and has necessary contracts in place with multiple vendors to provide the electronic and GPS monitoring equipment.

On April 4, 2011, Governor Jerry Brown signed into law Assembly Bill (AB) 109, referred to as 2011 Public Safety Realignment. AB 109 was later modified by AB 117. Both bills taken together create extensive changes to existing law which reduces the number of offenders eligible for incarceration in state prison and "realigns" these offenders to local entities who are now responsible to manage the specified offenders. The Probation Department utilizes electronic monitoring equipment to assist with the supervision of these offenders in the community when necessary.
