Community Development Services, Planning and Building Department, recommending the Board receive and file a presentation on the Lake Tahoe Basin Storm Water Management Program entitled "Paving the Road to Clarity, the Link Between Road Condition and Water Quality." (Est. Time: 15 Min.)

FUNDING: N/A

DEPARTMENT RECOMMENDATION

Community Development Services (CDS), Planning and Building Department, recommending the Board receive and file a presentation on the Lake Tahoe Basin Storm Water Management Program entitled "Paving the Road to Clarity, the Link Between Road Condition and Water Quality."

DISCUSSION / BACKGROUND

El Dorado County is covered under a Phase I Municipal National Pollutant Discharge Elimination System Permit in the Tahoe Basin, which is administered by the Lahontan Regional Water Quality Control Board. In order to comply with that Permit, the County has implemented a comprehensive storm water management program, the Lake Tahoe Basin Storm Water Management Program (Program), to protect and enhance the precious water resources in the Tahoe Basin. County staff continues to innovate and build upon lessons learned to improve the Program and lead others in our resource protection efforts.

This presentation outlines a potentially new innovation, one that the County is working towards in managing this Program.

ALTERNATIVES

N/A

OTHER DEPARTMENT / AGENCY INVOLVEMENT

CDS Department of Transportation

CAO RECOMMENDATION

It is recommended that the Board receive and file this presentation.
