

Legislation Text

File #: 21-0802, **Version:** 1

Supervisor Thomas recommending the Board:

- 1) Find that the use of the lawn area at the Placerville Main Library by Marshall Medical Center, a California non-profit corporation, is a public benefit for our community to award those medical staff that went above and beyond during the COVID crisis; and
- 2) Authorize the Purchasing Agent to execute Facility Use Agreement 5697 with Marshall Medical Center for the use of the lawn area at the Placerville Main Library (345 Fair Lane) for the purpose of a healthcare hero's event on Friday, May 21, 2021 from 5:00 pm to 7:00 pm.

DISCUSSION / BACKGROUND

During the COVID crisis, the healthcare professionals at Marshall Medical Center risked their own lives to care for patients that contracted this debilitating virus. They came to work on their days off, worked extra shifts and with their actions put our community first with their unwavering devotion to their patients.

I applaud Marshall Medical Center for wanting to recognize our community's healthcare heroes in this fashion. This event is a small token, but a worthy endeavor to show how much these under noticed professionals mean to our community.

ALTERNATIVES

The Board may decline to authorize the Facility Use Agreement and the event will have to find a different location.
