### Reporting Entities

#### Parent and Dependent Reporting Entity Activities Covered by This Quarterly Report

| RDRS ID | Entity Name                        | Activity Type      |
|---------|------------------------------------|--------------------|
| 10589   | Transfer/Processing Facility (MRF) | Transfer/Processor |
| 10589   | Recycle Buy-Back Center            | Recycler/Composter |
| 10589   | Resource Recovery Facility         | Recycler/Composter |

### Quarterly Report Revision History

| Revision Number | Started On | Submitted On |

|                     |            |            |
|---------------------|------------|------------|
| Original Submission | 08/25/2025 | 08/25/2025 |
|---------------------|------------|------------|

## Collection Methods

Method(s) Used To Determine Collection Method. [Title 14, CCR, 18815.9\(l\)](#)

- Obtained from the contract hauler from which the tons were received (Title 14, CCR, 18815.9(l)(3)(A))
- Assigned to the activity type of the source of the tons, since the tons were received from an activity type other than a contract hauler (Title 14, CCR, 18815.9(l)(3)(B))

**Table 1: Contract-Hauled Commercial Collection Methods**

| Collection Method                                    | Tons            |
|------------------------------------------------------|-----------------|
| Contract-Hauled Commercial Mixed Solid Waste         | 4,350.72        |
| Contract-Hauled Commercial Single-Bin Recyclables    | 299.77          |
| Contract-Hauled Commercial Multi-Bin Recyclables     | 0.00            |
| Contract-Hauled Commercial Source-Separated Organics | 1,298.10        |
| <b>Total</b>                                         | <b>5,948.59</b> |

**Table 2: Contract-Hauled Residential Collection Methods**

| Collection Method                                     | Tons            |
|-------------------------------------------------------|-----------------|
| Contract-Hauled Residential Mixed Solid Waste         | 2,713.24        |
| Contract-Hauled Residential Single-Bin Recyclables    | 489.50          |
| Contract-Hauled Residential Multi-Bin Recyclables     | 0.00            |
| Contract-Hauled Residential Source-Separated Organics | 1,437.35        |
| <b>Total</b>                                          | <b>4,640.09</b> |

**Table 3: Self-Hauled Collection Methods**

| Collection Method                     | Tons             |
|---------------------------------------|------------------|
| Self-Hauled Mixed Solid Waste         | 6,305.80         |
| Self-Hauled Mixed Recyclables         | 390.16           |
| Self-Hauled Split Recyclables         | 0.00             |
| Self-Hauled Source-Separated Organics | 4,893.19         |
| <b>Total</b>                          | <b>11,589.15</b> |

**Table 4: Received from Reporting Entity other than Contract Hauler Collection Methods**

| Collection Method                                  | Tons |
|----------------------------------------------------|------|
| Material Received from Brokers and/or Transporters | 0.00 |
| Material Received from Recyclers                   | 0.00 |
| Material Received from Composters                  | 0.00 |
| Material Received from Transfer/Processors         | 0.00 |
| Material Received from Disposal Activities         | 0.00 |

|       |      |
|-------|------|
| Total | 0.00 |
|-------|------|

## Inflows

### Summary Information and Inflow Methodology

Questions on methods used to determine inflow tons at your facility and why inflow tons reported from other facilities were changed.

Method(s) Used To Determine Tons Received . Title 14, Ccr, 18815.9(g)

- Measurement methods using scales
  - Track material weight using certified scales. 18815.9(g)(1)
- Exceptions – Measurement methods allowed by regulations without using scales
  - I record self-haul loads by volume and estimate disposal tonnages using volume to weight conversion factors. 18815.9(g)(3)(A)

### Summary of Total Inflow Tons Accepted for All Material Streams

| Category                               | Tons Accepted by Your Facility |
|----------------------------------------|--------------------------------|
| Tons Accepted from Transfer/Processors | 0.00                           |
| Tons Accepted from Direct Haul         | 22,177.83                      |
| Total Tons Accepted                    | 22,177.83                      |

### Inflow Streams Accepted from Transfer/Processors

Material Accepted at Your Facility from Transfer/Processors (that reported in RDRS)

| Organization/Site     | Reporting Entity Name (RDRS #) | Material Stream | Material Type | Tons Sent to You (as reported by senders) | Tons Accepted by Your Facility | Approval Status |
|-----------------------|--------------------------------|-----------------|---------------|-------------------------------------------|--------------------------------|-----------------|
| There are no inflows. |                                |                 |               |                                           |                                |                 |
| Total                 |                                |                 |               | 0.00                                      | 0.00                           |                 |

Material Accepted from Transfer/Processors Who Are Not Listed Above

| Organization/Site     | Reporting Entity Name (RDRS #) | Material Stream | Material Type | Tons Accepted by Your Facility |
|-----------------------|--------------------------------|-----------------|---------------|--------------------------------|
| There are no inflows. |                                |                 |               |                                |
| Total                 |                                |                 |               | 0.00                           |

### Inflow Streams Accepted from Direct Haul

Total Material Accepted from Direct Haul at Your Facility (Includes Processing Residuals)

| Material Stream | Material Type | Tons Accepted by Your Facility |
|-----------------|---------------|--------------------------------|
|-----------------|---------------|--------------------------------|

|                                         |                                                            |                  |
|-----------------------------------------|------------------------------------------------------------|------------------|
| Non-Green Material for Beneficial Reuse | Processed Construction and Demolition Wastes and Materials | 2,487.87         |
| Solid Waste for Disposal                | N/A                                                        | 19,689.96        |
| <b>Total</b>                            |                                                            | <b>22,177.83</b> |

## Outflows

### Outflow Streams Sent

- Non-Green Material for Potential Beneficial Reuse
- Recycling/Composting
- Solid Waste for Disposal

### Outflow Summary

| <b>Solid Waste Disposal</b>                                                       | <b>Tons</b> |
|-----------------------------------------------------------------------------------|-------------|
| Total Inflow of Solid Waste Disposal                                              | 19,689.96   |
| Outflow of Solid Waste for Disposal                                               | (12,098.66) |
| Remaining Solid Waste Available for Outflow                                       | 7,591.30    |
| <b>Disaster Debris Disposal</b>                                                   | <b>Tons</b> |
| Total Inflow of Disaster Debris                                                   | 0.00        |
| Outflow of Disaster Debris for Disposal                                           | (0.00)      |
| Remaining Disaster Debris Available for Outflow                                   | 0.00        |
| <b>Designated Waste Disposal</b>                                                  | <b>Tons</b> |
| Total Inflow of Designated Waste                                                  | 0.00        |
| Outflow of Designated Waste for Disposal                                          | (0.00)      |
| Remaining Designated Waste Available for Outflow                                  | 0.00        |
| <b>Green Material for Potential Beneficial Reuse</b>                              | <b>Tons</b> |
| Total Inflow of Green Material for Potential Beneficial Reuse                     | 0.00        |
| Outflow of Green Material for Potential Beneficial Reuse                          | (0.00)      |
| Remaining Green Material for Potential Beneficial Reuse Available for Outflow     | 0.00        |
| <b>Non-Green Material for Potential Beneficial Reuse</b>                          | <b>Tons</b> |
| Total Inflow of Non-Green Material for Potential Beneficial Reuse                 | 2,487.87    |
| Outflow of Non-Green Material for Potential Beneficial Reuse                      | (2,487.87)  |
| Remaining Non-Green Material for Potential Beneficial Reuse Available for Outflow | 0.00        |
| <b>Recycling/Composting</b>                                                       | <b>Tons</b> |
| Total Outflow of Materials to Recycling/Composting Facilities                     | 7,527.39    |
| <b>End Use</b>                                                                    | <b>Tons</b> |
| Total Outflow of Materials to End Use                                             | 0.00        |
| <b>Brokering/Transporting</b>                                                     | <b>Tons</b> |
| Total Outflow of Materials to Transporters/Brokers                                | 0.00        |
| <b>Mixed Plastic Waste Export</b>                                                 | <b>Tons</b> |
| Total Outflow of Materials for Mixed Plastic Waste Export                         | 0.00        |

### Outflow Methodology

Questions on how outflow tons are determined and jurisdiction of origin is tracked.

Method(s) Used To Determine Tons Sent . Title 14, Ccr, 18815.9(g)

- Track outflow amounts based on my own measurements of the following (Check all that apply): (multi-select)
  - Track material weight using certified scales. 18815.9(g)(1)
- Rely on the receiving facility to provide outflow amounts based on the recipient's measurement of tons using the following methods (Check all that apply): (multi-select)
  - Track material weight using certified scales. 18815.9(g)(1)

Method(s) Used To Determine Jurisdiction Of Origin For Direct Haul Material (msw), Green Material Potential Beneficial Reuse From Direct Haul, Or Mixed Plastic Waste Export. Title 14, Ccr, 18815.9(b)

- Standard methods for each load of material accepted (check all that apply). (multi-select)
  - Ask jurisdiction of origin at the gate at the time of delivery for each hauler/person bringing materials. 18815.9(b)(2)
  - Use periodic reports from the reporting entities delivering materials. 18815.9(b)(2)

## Outflow Detail by Material Stream

Non-Green Material for Potential Beneficial Reuse

| Organization/Site    | Reporting Entity Name (RDRS #)            | Tons Sent       | Material Type(s)                                           | Constituent Material(s) |
|----------------------|-------------------------------------------|-----------------|------------------------------------------------------------|-------------------------|
| Carson City Landfill | Carson City Landfill - Landfill (RD11194) | 2,487.87        | Processed Construction and Demolition Wastes and Materials |                         |
| <b>Total</b>         |                                           | <b>2,487.87</b> |                                                            |                         |

Recycling/Composting

| Organization/Site             | Reporting Entity Name (RDRS #)          | Region (Country, State, Tribal Land) | Tons Sent | Material Type(s)              | Constituent Material(s)                                                                                  |
|-------------------------------|-----------------------------------------|--------------------------------------|-----------|-------------------------------|----------------------------------------------------------------------------------------------------------|
| Green Evolution Recycling LLC | Green Evolution Recycling LLC (RD12926) |                                      | 339.39    | Uncoated Corrugated Cardboard |                                                                                                          |
| Green Evolution Recycling LLC | Green Evolution Recycling LLC (RD12926) |                                      | 51.21     | Mixed Paper                   | I certify that I cannot determine the list of constituent materials for this heterogeneous material type |

## Green Material Potential Beneficial Reuse Origins

Complete the Following Only If You Changed the Default Jurisdiction Tons Of Green Material For Potential Beneficial Reuse (e.g., Actual Tons Sent To Each Destination From Each Jurisdiction Were Modified): If You Modified the Defaults, Please Click the Edit Button To Provide Your Reason(s) For Doing So. Title 14, Ccr, 18815.9(b) (multi-select)

- Not answered yet.

### Direct Haul Green Material Potential Beneficial Reuse Origins Accepted

Total Direct Haul Green Material Potential Beneficial Reuse Inflow Tons  
0.00

| Jurisdiction of Origin                       | Host Assigned | State, Country or Tribal Land | Tons Accepted | Percentage Accepted |
|----------------------------------------------|---------------|-------------------------------|---------------|---------------------|
| There are no direct hauled disposal origins. |               |                               |               |                     |
| Total                                        |               |                               | 0.00          | 0.00                |

### Green Material Potential Beneficial Reuse Allocation by Destination for Direct Haul

| Organization/Site                                                   | Reporting Entity Activity (RDRS #) | Tons Sent | Tons Sent Percentage |
|---------------------------------------------------------------------|------------------------------------|-----------|----------------------|
| There are no green material potential beneficial reuse allocations. |                                    |           |                      |
| Total                                                               |                                    | 0.00      | 0.00                 |

### Green Material Potential Beneficial Reuse Origins Destination and Material Sent

| Jurisdiction of Origin                                                      | Host Assigned | State, Country or Tribal Land | Estimated Tons Sent | Estimated Percentage Sent | Actual Tons Sent | Actual Percentage Sent | Status |
|-----------------------------------------------------------------------------|---------------|-------------------------------|---------------------|---------------------------|------------------|------------------------|--------|
| There are no green material potential beneficial reuse origin destinations. |               |                               |                     |                           |                  |                        |        |
| Total                                                                       |               |                               | 0.00                | 0.00                      | 0.00             | 0.00                   |        |

## Mixed Plastic Waste Export Origins

### Mixed Plastic Waste Export Origins Sent

## Source Sector

### Source Sector for Solid Waste Sent

Methodology Used . [Title 14, CCR, 18815.9\(c\)](#)

- Assign source sector based on vehicle type. 18815.9(c)(1)

**Total Sent to Disposal from Direct Haul:**

12,098.66

| Source Sector | Tons Sent        | Percentage    |
|---------------|------------------|---------------|
| Commercial    | 2,714.94         | 22.44         |
| Residential   | 2,938.76         | 24.29         |
| Self-Haul     | 6,444.96         | 53.27         |
| <b>Total</b>  | <b>12,098.66</b> | <b>100.00</b> |

## Organics Measurement

### Mixed Waste Organic Collection Stream(s)

| Question                                                                               | Answer |
|----------------------------------------------------------------------------------------|--------|
| Does your reporting entity receive one or more mixed waste organic collection streams? | Yes    |

#### Report the sum for the quarter:

| Question                                                                                                                                                    | Answer   | Notes For 0 Entry |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|-------------------|
| Total incoming weight of mixed waste organic collection streams (tons):                                                                                     | 1,607.70 |                   |
| Total outgoing weight of all material recovered from mixed waste organic collection streams (sent out for end use, recovery, or further processing) (tons): | 76.00    |                   |
| Total outgoing weight of all material sent to disposal (as defined in the SB 1383 regulations, 18983.1) from mixed waste organic collection streams (tons): | 1,531.70 |                   |

#### Report the sum for the ten-day measurement period:

| Question                                                                                                                                                | Answer | Notes For 0 Entry |
|---------------------------------------------------------------------------------------------------------------------------------------------------------|--------|-------------------|
| Outgoing weight of organic waste recovered from mixed waste organic collection streams (sent out for end use, recovery, or further processing) (tons):  | 16.45  |                   |
| Outgoing weight of organic waste from mixed waste organic collection streams sent for disposal (as defined in the SB 1383 regulations, 18983.1) (tons): | 26.30  |                   |
| Did this facility use an Alternative Measurement Protocol to implement the 10-day evaluation?                                                           | No     |                   |

### Source Separated Organic Waste Collection Stream(s)

| Question                                                                                          | Answer |
|---------------------------------------------------------------------------------------------------|--------|
| Does your reporting entity receive one or more source separated organic waste collection streams? | Yes    |

#### Report the sum for the quarter:

| Question                                                                                                                                                                | Answer   | Notes For 0 Entry                                          |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|------------------------------------------------------------|
| Total incoming weight of source separated organic waste collection streams (tons):                                                                                      | 7,628.64 |                                                            |
| Total outgoing weight of all material recovered from source separated organic waste collection streams (sent out for end use, recovery, and further processing) (tons): | 7,628.64 |                                                            |
| Total outgoing weight of all material sent to disposal (as defined in the SB 1383 regulations, 18983.1) from source separated organic waste collection streams (tons):  | 0.00     | All organic source separated material is sent for recovery |

#### Report the sum for the ten-day measurement period:

| Question                                                                                                                                                           | Answer | Notes For 0 Entry                                          |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|------------------------------------------------------------|
| Outgoing weight of organic waste recovered from source separated organic waste collection streams (sent out for end use, recovery, and further processing) (tons): | 991.79 |                                                            |
| Outgoing weight of organic waste from source separated organic waste collection streams sent for disposal (as defined in the SB 1383 regulations, 18983.1) (tons): | 0.00   | All organic source separated material is sent for recovery |
| Did this facility use an Alternative Measurement Protocol to implement the 10-day evaluation?                                                                      | No     |                                                            |

### Gray Container Collection Stream(s)

| Question                                                                                                                                             | Answer | Notes For 0 Entry |
|------------------------------------------------------------------------------------------------------------------------------------------------------|--------|-------------------|
| Does your reporting entity receive more than 500 tons of material from the gray container collection stream from at least one jurisdiction annually? | Yes    |                   |
| Report the percentage of remnant organic waste in the gray container waste evaluation sample performed by your reporting entity this quarter:        | 10.20  |                   |
| Did this facility use an Alternative Measurement Protocol to implement the evaluation?                                                               | No     |                   |

### Composting or In-Vessel Digestion Operations

| Question                                                                                                                                              | Answer | Notes For 0 Entry |
|-------------------------------------------------------------------------------------------------------------------------------------------------------|--------|-------------------|
| Does your reporting entity have at least one dependent composting and/or in-vessel digestion operation on site that is active and required to report? | No     |                   |
