

2024 El Dorado Hills Community Services District Electronic Annual Report summary

This Annual Report Summary is an official record of your CalRecycle Electronic Annual Report submission, except for your Venue/Event section information, which is contained in a separate report.

You may reach that section from the Electronic Annual Report's left navigation bar. Before submitting your report to CalRecycle, please take the time to review everything on this page to confirm it is complete and correct. If you need to modify some information, close this window to return to the Electronic Annual Report to make your corrections. Then, preview the report again.

El Dorado Hills Community Services District	No waivers were issued.

Contamination, Inspections, and Complaints: El Dorado Hills Community Services District (2024)

Contamination Monitoring for Prohibited Container Contaminants (SLCP)

Jurisdiction Name	Number of route reviews conducted for prohibited container contaminants	Waste evaluations	Waste evaluation results description
El Dorado Hills Community Services District	3484	√	EDDS tracks this through on the Education and Outreach Tracker. When a driver reports a violation, it is given to the Sustainability team that reach out to the household with the violation so a remedy can be found. The drivers also place an OOPS tag on the garbage can so they know they have a violation and correction can be done.

Jurisdiction Name	Number of targeted route reviews resulting from waste evaluations	Number of notices, violations, or targeted education materials issued to generators	Additional description
El Dorado Hills Community Services District	293	0	EDDS has an Opps Recycle Right Program that is ran on every route Monday through Friday by route driver. In EDH there are 8 residential routes daily and 5 commercial routes daily. Saturday there are 2 commercial routes. (52 weeks*5 days a week=260 days 260*8= 2,080) (260*5=1,300) (52 weeks*2=104) (2,080+1,300+104=3,484 route reviews per year) All information communicated from the driver is reported to the EDDS Sustainability Team and will be reflected in the Education and Outreach Tracker. As a follow up to the route reviews, 293 waste evaluation reviews that sampled 293 homes. These sampled reviews were targeted by EDDS truck drivers that communicated that the route was severely contaminated during their route reviews.

Inspections (SLCP)

Jurisdiction Name	Number of commercial edible food (tier one) generators inspections	Number of commercial edible food (tier two) generators inspections	Number of food recovery organizations or services inspections	Number of commercial businesses inspections, if applicable
El Dorado Hills Community Services District	4	0	0	0

Jurisdiction Name	Additional description
El Dorado Hills	We inspected the four commercial edible food generators for tier one. We do not have any tier two generators. The Food
Community Services	recovery organizations that work with the Tier One group do not have headquarters in EDH, so no inspections occured.

Additional Information and Document Management: El Dorado Hills Community Services District (2024)

Additional Information

Is there anything else you would like to tell CalRecycle about unique or innovative efforts by your jurisdiction to reduce organic waste generation and increase diversion, about your jurisdiction's public education efforts, or about specific obstacles to reaching your jurisdiction's implementation of an organic recycling program?

Brief description of additional information files, including calculation data for infrastructure planning.

Thanks for reviewing the Districts EAR and providing edits to correct the content, Please see my confirmation below

From: Smith, Zac@CalRecycle <ZacSmith@CalRecycle.ca.gov> Sent: Thursday, October 9, 2025 10:59 AM To: Ten Gotro <tgotro@edhcsd.org> Cx: Miller, KarlaeCalRecycle <Arka Miller@CalRecycle.ca.gov> Subject: ["EXTERNAL"] 2024 EAR Corrections

Hi Teri

Here are the issues we discussed re: the 2024 EAR during yesterday's meeting, organized by EAR section. Can you please provide responses to my bolded questions so that we can confirm what changes need to be made as part of the EAR resubmittal process? Please feel free to call if you have any questions! See below

Edible Food: 278,680 lbs of food donations reported, but there are no FROs in the jurisdiction. This number should have been zero. Can you confirm? Confirming this number should be \$0

Collections: EAR lists 2 haulers approved to collect organic waste – it seems that there is only one (EDD). Can you confirm? Confirming that we just have one hauler and it is EDD.

Education and Outreach: # of CEFGs reported to receive E/O is 204 (print) and 598 (direct contact), with notes stating that 135 "commercial food generators" received a commercial waste guide. There are only four CEFGs reported within the jurisdiction, so the number of CEFGs receiving outreach should be four or less. Can you provide revised CEFG outreach totals? (see screenshot below for reference)

Answered.

Requirements. Site Visits were

Waivers: three issues - see below screenshot for reference.

- The "Department-issued Waivers' section lists 84 waived generators. This appears incorrect CalRecycle (the "Department" has not issued a waiver for El Dorado Hills CSD. Can you confirm? Yes, I can confirm
- 2. The "Number of de-minimus waivers issued" field refers to the number of new de-minimus waivers that were issued in 2024. Can you confirm what the correct number is? (if you like, you can also clarify the total number of de-minimus waivers issued to date in the "additional description field". 85 waivers have been issued. I do not have details to support whether this was in 2024 or 2025. We are in the process of revisiting all of these businesses and completing a formal exemption from for each of them instead of Just maintaining a log.

 3. The "additional description" section for "department-issued waivers" states that waivers were issued for businesses that generated less than ½ CY of organic waste per week. This does not match the SB 1383 threshold for de-minimus
- waivers: https://calrecycle.ca.gov/organics/slcp/collection/systems/, and appears to be intended for the "jurisdiction issued waviers" below. Can you provide revised language for this notes section, or confirm that it is appropriate to delete? The waivers were issued to commercial business that had greater than 2 cubic yards of waste & less than 20 gallons of organics or less than 2 cubic yards of waste & less than 10 gallons of organics per week.
